2016 SECIM Seminar & Tutorial

*"Metabolic Reconstruction, Modeling, and
Metabolomics Analysis in BioCyc"*

Peter Karp, Ph.D.
SRI International
BioCyc Tutorial

BioCyc.org is an extensive and user-friendly genome informatics portal containing 7,600 microbial genomes and associated metabolic pathways. This four hour tutorial will cover many aspects of BioCyc, with a focus on metabolomics data analysis.

Friday, July 8, 2016

9:00am – 1:00pm

Clinical and Translational Research Building (CTRB)

Rooms 2161 & 2162

Please sign up for this tutorial through the SECIM website: secim.ufl.edu

Attendees are strongly encouraged to bring a laptop to this tutorial.
